REF: RECOMMENDATION FOR EMMANUEL KIPROTICH

Amtech Technologies limited is an established company dealing with business solutions of both *software* and *hardware* in nature.

I am pleased to write this letter of recommendation on behalf of the above-named person who worked with us from **13TH MAY** to **1ST AUG 2025** as an Attachee. Some of the duties he performed were:

- Developed, tested and deployed Sacco and other industry solutions.
- Managed and certified software produced internally.
- Evaluating new Projects and incorporate existing of new technologies.
- Review system development procedures and documentations to make sure that they meet industry and regulatory standards.
- Ensures the security and integrity of all systems and data.
- Training users on new system developments.
- Database design.
- System design and analysis.
- Network maintenance and trouble shooting.
- Web designing and development.

From the time he started his attachment period with the Company, I was impressed with his drive, determination, and tenaciousness. He is a hardworking and obedient person who is keen and works with minimal supervision. In addition, he is productive and ambitious in his duties. He also possesses good communication skills. I have no hesitation about recommending him highly to any prospective employer.

For and on Behalf of **AMTECH TECHNOLOGIES LIMITED**

Benard Ngelechei (Mr.)
